Subject: Revised draft of CRA Guidelines for Writing Team Concurrence
Attachments: CRA Guidelines ver2020-Response to Comments.docx

Hi.

I've revised the draft and addressed OAR & OP's recommended edits. There is very little – all comments remain with responses, and all edits are in track changes so its easy to review and will take no more than 15 minutes to look at. Please give it a look and make any suggestions or edits – if any (to all). Hopefully, the edits I've made will be satisfactory. Please reply by COB Mon. 4/13.

With the Writing Team's concurrence I'll pass this back to the Review Team for their concurrence.

Stay well,
Lawrence
